THERMOMARK E SERIES

Experience industrial identification in a completely new way with the THERMOMARK E SERIES: printing and application in just a single step! The modular system delivers more efficiency in control cabinet manufacturing: Combine the powerful thermal transfer roll printer with one of the four applicators. The systems print labels and apply them automatically to cables and conductors. They also provide the option to print terminal markers in continuous format and cut them individually to the appropriate pitch. The combination of these process steps results in time savings of around 60%.
